Sir at the request of the
Heirs I have taken out letters of administration
on the Estate of Captain George Owings, and
a copy of which is herewith included, I send enclosed
also the commission of Captain George Owings,
will you have the goodness to make inquiry about
the amount of money due for his services
If notice has been done by the proper officers in returning
the name of Captain George Owings, there must
certainly be a considerable amount of money
as well as bounty land due to the heirs of Captain
George Owings.

I am preparing the proper testimony to make
applications for bounty lands on account of the
services of Capt. Owings, I have taken out
Declarations which clearly prove his services for more
than three years, from the same papers I learn
that Capt. Owings rendered good and

David Owings of the State
aforesaid being duly sworn makes oath & says,
that his first acquaintance with Captain George Owings
commenced sometime in April 1782, at which time
this affiant in company with his father removed to
Louisville in the State of Kentucky. Captain George Owings
was at that time in the fort at Louisville, in command
of his company. I was informed by Captain George Owings
and others of his men that they had been stationed at
the Iron banks at fort Jefferson; at they told me that
Captain George Owings had shot Colonel Colbert at fort
Jefferson while he Colbert was in command of the
Indians who were besieging the fort. This latter statement
affiant does not know of his own knowledge, but only
from hearsay at the time. This affiant lived in the fort
at the falls; from the time of his arrival there in April
1782 till the autumn of (1783) one thousand seven hundred
and eighty three, Captain George Owings remained at
the fort in command of his company, except at such
times as he was absent in pursuit of Indians on
the other side of the river. This affiant remembers
to have frequently seen Captain George Owings returning
with his company from their scouting expeditions
bearing with them prisoners & scalps.

Affiant states that in the fall of one thousand seven
hundred and eighty three the company under the
command of Captain Owings was disbanded,
and that up to that time Captain Owings retained
the command of it. After his company was disbanded

seen as follows. Captain George Owings in company with two men one named Jerry Mays, and another John Oliver had started on a hunting expedition, and on their return, they were attacked by a party of Indians who killed Mays the first fire, and captured Capt Owings and John Oliver. The Indians took Mrs Oliver and Captain Owings with them to the mouth of Vermillion River in Indiana, where they burned Captain George Owings several days by a slow fire.

These latter facts this affiant learned from Mrs Hart, and William Wells who were prisoners and present at the time of the burning; he has also heard the same statements from John Oliver, above named, and has no doubt of their truth.

This affiant was acquainted with Charity Owings the wife of Captain George Owings for several years before the death of Captain Owings; she has been dead four or five years. Affiant further states that Captain George Owings had two sons by his wife Charity, who were named George E. Owings & Thomas Owings, and who are both living at this time in Scott County in this state.

These are the only heirs now living of whom this affiant has any knowledge. There was a daughter who is dead. This affiant is a nephew to Captain George Owings. Captain Owings & this affiant's father were half brothers.

This affiant has no interest direct or indirect in the event of the application now making by the heirs of Captain Owings for lands or other claims. Captain Owings had the reputation

acquainted with David Owens, whose affidavit
above appears for a long space of time, that he is a
man of respectability and that his statements above

and burnt him for some days, as this affiant was subsequently informed by John River who made his escape from there shortly afterwards.

This affiant further states that he was acquainted with William Wells, and is well satisfied in his own mind that Wells was present and with the Indians when Capt. Boone was burnt. This affiant further states that Capt. George Boone was considered to have been and when a soldier, as well lived and considered as much served his country in an office of some rank in his day in notifying the women and children in the frontiers of this country.

And this affiant holds in conclusion that it does appear and seem to have the name of the name of Captain George Boone up to this day, and although he was burnt at the time yet the circumstances above related are as facts in his mind, although his mind is not perfect in the matter.

This affiant states that Fort Jefferson was at what is called now the Iron Banks, on the Mississippi River.

And further affiant saith not.
